SUBJECT: Effective and Comprehensive Equal Opportunity Laws

Your working draft was excellent and I have only a few suggestions.

1. That all new legislation be packaged under one title such as "The Americans with Disabilities Act of 1986". In this way, I feel the recommended legislative changes can be marketed much more effectively.
2. That a chart be composed detailing the various definitions of disability utilized by different Federal agencies. This will emphasize the need for a uniform definition of disability across all Federal programs.
